# How to Be Free

Breaking the Inner Prisons Written in the Stars

Shaka Senghor's *How to Be Free* is a raw, deeply human book about escaping not only physical incarceration but the **invisible prisons** of grief, anger, shame, and fear. Through his personal journey and practical framework, Senghor shows that freedom isn't something granted from the outside — it's **chosen, cultivated, and renewed from within**.

Astrology, too, is a system that speaks to this inner journey. Every birth chart reveals where we are bound by conditioning, where we hold pain, and where we're destined to **reclaim power**. When we overlay Senghor's "freedom framework" with the language of astrology, we discover a **cosmic map of liberation** — one that turns suffering into strength and personal history into higher purpose.

## 1. The 12th House and Saturn: Hidden Prisons and the Structures That Bind

Senghor writes that the most powerful prisons are not made of "concrete and steel" but of **unhealed emotions, trauma, and internalized stories**. In astrology, this is mirrored in the **12th house** — the realm of the subconscious, hidden sorrows, karmic patterns, and self-undoing — and in **Saturn**, the planet of limits and lessons.

- The **12th house** shows where we may unconsciously sabotage ourselves or where pain remains buried.
- **Saturn** reveals the walls we build to protect ourselves — which can eventually become the very structures that trap us.

When Senghor describes grief, anger, shame, and trauma as "hidden prisons," he is essentially describing **12th-house and Saturnian dynamics**. Liberation begins with recognizing those patterns rather than fighting their existence. In astrology, Saturn teaches through discipline and confrontation of fear; the 12th house invites surrender and self-compassion.

"Everyone has hidden prisons. But every prison has a door." — Shaka Senghor

In astrological language: **Saturn gives the lock, but also the key.**

## **2. Mars and Pluto: Confronting Anger and Reclaiming Power**

One of the most powerful sections of Senghor's story is his confrontation with **anger** — first as a destructive force that led to violence and imprisonment, and later as a source of **clarity and transformation**.

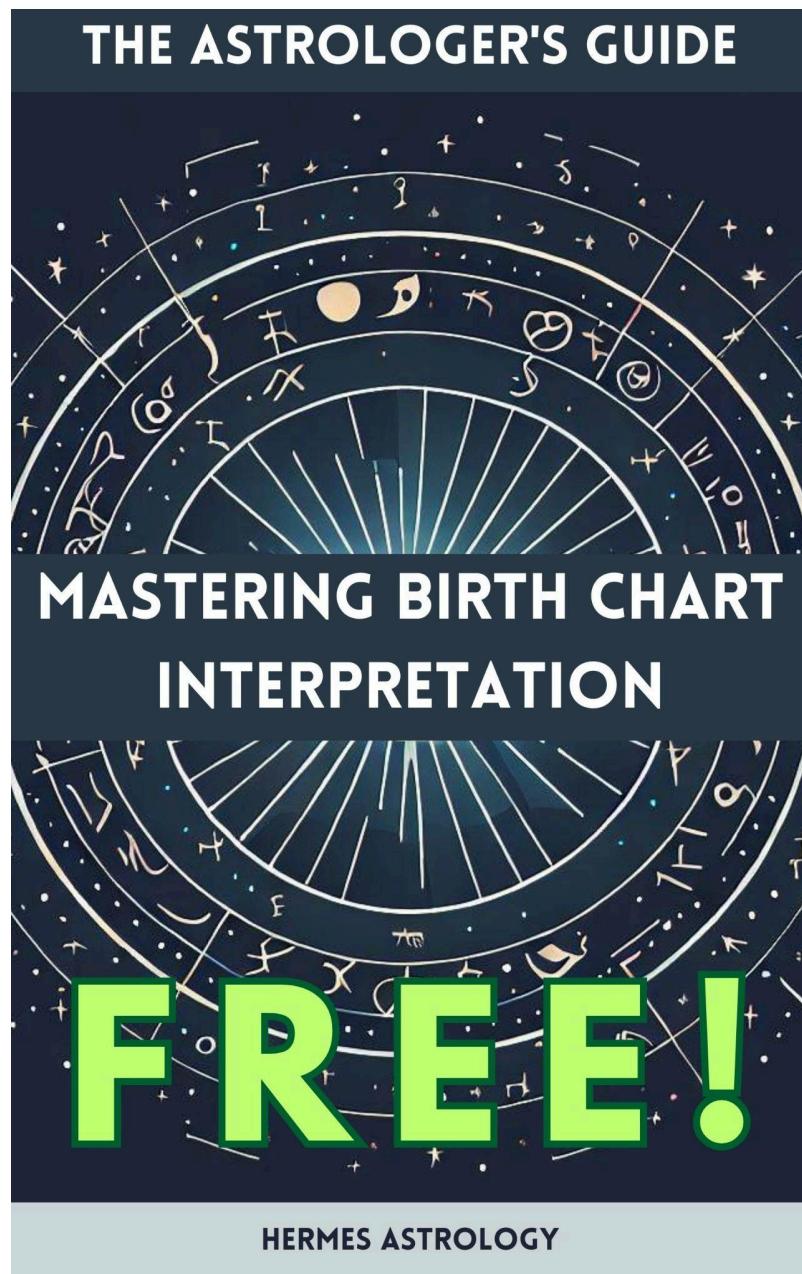

In astrology, **Mars** rules anger, action, and willpower. **Pluto**, the planet of the underworld, represents transformation, rage, trauma, and the reclaiming of personal power from darkness.

- Mars in a birth chart shows how a person instinctively reacts when threatened or triggered.
- Pluto shows the deep, hidden forces and survival instincts underneath those reactions.

When these energies are unconscious, they can lead to self-destruction. But when harnessed consciously — as Senghor learned to do through reflection, journaling, and healing — they become engines of profound **personal evolution**.

This mirrors the Pluto journey astrologers often speak of: **descending into the shadow, facing the darkness, and returning with power.**

### 3. The Moon and Chiron: Healing Emotional Wounds

Much of Senghor's work revolves around learning to sit with pain — grief, loss, shame — and finding **emotional resilience**. In astrology, this is the domain of the **Moon** (emotional body, attachment, and safety) and **Chiron** (the archetypal Wounded Healer).

- The **Moon** shows how we cope with feelings and where we seek emotional security.
- **Chiron** reveals our deepest wounds — not to define us, but to guide us toward **healing and teaching others**.

Senghor's journey from incarceration to becoming a resilience mentor is a living embodiment of **Chiron's path**: turning personal pain into a tool for collective healing.

### 4. The North Node: The Soul's Path to Freedom

Astrology teaches that the **North Node** in the birth chart represents the soul's evolutionary direction — the lessons and qualities we must embody to grow. Senghor's transformation — from being trapped in inner and outer prisons to becoming a voice of empowerment — perfectly reflects a **North Node journey**: stepping into uncomfortable growth, releasing old patterns (South Node), and **claiming inner freedom**.

For example:

- A **North Node in Aries** might speak to developing self-leadership and courage.
- A **North Node in Libra** might emphasize healing through community and forgiveness.
- A **North Node in Scorpio** would mirror Senghor's path exactly: **transformation through facing darkness**.

The North Node doesn't promise ease — it promises **liberation** through purpose.

---

## 5. Jupiter and Freedom: Redefining Success

Senghor emphasizes that real freedom is not “having unlimited choices” but **living a life of purpose**. In astrology, this is the language of **Jupiter** — the planet of belief, faith, expansion, and **meaning**.

- Jupiter in a chart reveals where we can find a higher philosophy that sustains us.
- It points to the inner compass that helps us rise above circumstances.

When Senghor learned to free his mind before his parole was granted, he lived out a Jupiterian truth: **external freedom follows internal liberation**.

---

## 6. The Three-Part Journey and the Astrological Wheel

Senghor structures the book into three parts:

1. **Breaking the Chains** (grief, anger, shame)
2. **Finding Your Strength** (forgiveness, vulnerability, resilience)
3. **Embracing Freedom** (joy, love, success, fearlessness)

This mirrors the **astrological journey through the chart**:

- **Houses 1–4 (roots)** — confronting personal pain and unconscious patterns (Breaking the Chains).
- **Houses 5–8 (power)** — developing inner strength and personal agency (Finding Your Strength).
- **Houses 9–12 (freedom)** — embracing purpose, spiritual maturity, and collective contribution (Embracing Freedom).

This parallel shows how astrology can give **language and timing** to the very processes Senghor describes experientially.

---

## 7. Transits and Timing: Freedom Has Seasons

Senghor's story shows that freedom is not linear; it's a **daily practice** and a series of **turning points**. Astrology reflects this through **transits, progressions, and planetary cycles**, which reveal when certain inner prisons are likely to surface — and when liberation is most possible.

- A **Saturn return** may bring up fear and responsibility.
- A **Pluto transit** often forces deep transformation and shadow work.
- A **Jupiter transit** can bring expansion, purpose, and the courage to step forward.

Knowing these cosmic cycles can help individuals **anticipate their inner seasons of growth**, just as Senghor learned to anticipate emotional waves and respond with mindfulness and strategy.

---

## 8. Forgiveness, Venus, and Neptune: The Soft Power of Liberation

A central part of Senghor's journey is forgiveness — of himself, of others, of life. In astrology, forgiveness and compassion resonate with **Venus** (connection, self-worth, love) and **Neptune** (unconditional love, transcendence, spiritual healing).

Forgiveness is not weakness; it's **the unlocking of the soul's cage**. Venus teaches self-love as a foundation for healing, and Neptune dissolves illusions that keep us tied to old narratives.

Senghor's story illustrates that freedom isn't only built through strength (Mars/Pluto) — it's also softened, expanded, and sustained by **love and grace**.

---

## 9. Freedom as a Daily Practice: Astrology as a Compass

Senghor writes:

“Freedom isn’t a destination I reached when I walked out of prison—it’s a path I continue to walk every day.”

Astrology mirrors this truth. The chart is not a static portrait — it’s a **living map** that moves with us. Each transit, progression, and return invites us to **renew our commitment to freedom**, just as Senghor renews his daily.

Your chart shows **where** your prisons are and **how** you can unlock them — but you must walk through the door.

---

## Conclusion: Astrology and the Practice of Liberation

*How to Be Free* is a story of redemption, resilience, and radical responsibility. It reminds us that **our past does not define our path** — our choices do. Astrology offers a parallel structure: the planets, houses, and nodes point to **where the work lies**, but the real transformation happens when we **choose to engage**.

- **Saturn** shows the wall.
- **Pluto** leads us into the shadow.
- **Chiron** reveals the wound.
- **Jupiter** lights the horizon.
- **The North Node** points the way forward.

Freedom is both **cosmic** and **conscious**. Senghor gives us the practice. Astrology gives us the **map**.
